Bug-06	Home: Latest News Button Links		Home: Latest News Button Links	Hover works But clicking does not redirect to any detailed news page, it can lead user to leak of information about latest news about school	Window		System should open a new page to read news details on click	no redirection occurs on click	Major	Medium	new	Ruma Akter(QA)	Home
Bug-07	Home: Email Address		Home: Email Address	open page to select user mail address, but did not redirect to gmail directly, it should open the gmail compose section and the school email address automatically write into "To" section	Window		System should redirect to user email to directly send mail	Only open to select user mail address then it redirect to google page not in gmail	Major	High	new	Ruma Akter(QA)	home
Bug-08	Home: Social Links		Home: Social Links	Hover effects and cursor changed to a hand icon correctly, but When a social media link is clicked, it opens in a new browser tab or window and redirects the user to the home page of the same website instead of School social platform.	Window		Should open correct social platform page	Page redirects Home page	Major	Medium	new	Ruma Akter(QA)	home
Bug-09	Home: Community button		Home: Community button	hover works, but when the " Apply Now " button in the Community section is clicked, no action is triggered. The button does not redirect the user to another page, the user remains on the same page with no visible response, indicating that the button is currently non-functional.	Window		After clicking system should redirect to another targeted page	the button is non-functional, no action is triggered.the user remains on the same page	Major	Medium	new	Ruma Akter(QA)	Home
Bug-10	Navbar: School history	Stable internet connection	Navbar: School history	The " School History " link in the navbar works correctly and redirects to another page with visible content. However, in the Bangla version, the " Milestone years remain in english digits " there is no hover effect on Our Vision and Our Mission, and the milestone text alignment is incorrect.	Window		System should redirect to targeted page, all content should be translated and aligned correctly	it redirect properly but all contents / text alignment did not appear correctly	Minor	Low	new	Ruma Akter(QA)	School History
Bug-11	School History: Founders		School History: Founders	when mouse pointed hover works properly but in the bangla version founder names are not translated into bangla ,clicking on a founder's name does not open any profile or linked details.	Window		Founders information should be shown with proper link attachment for appear founders profile	founders name show properly but clicking them does not open any founder profile or linked details.	Minor	Low	new	Ruma Akter(QA)	
Bug-12	Navbar: Students		Navbar: Students	The Students link in the navbar redirects to another page, where a loading message " Loading students data... " appears. After 10 seconds, a message is shown "An error occurred" data failed to load. Clicking the " Try Again " button does not work hover color didn't change, stays in gray color., although the hover effect and pointer cursor are displayed correctly.	Window		student information should be shown	a message shows ' An error occurred, failed to load notices, Please try again later.'	Critical	High	new	Ruma Akter(QA)	Students
Bug-13	Navbar: Teachers	Photo gallery page loaded	Navbar: Teachers	The teachers link in the navbar redirects to another page, where a loading message " Loading teachers data... " appears. After a few seconds, a message is shown "An error occurred" data failed to load. Clicking the Try Again button does not work, although the hover effect and pointer cursor are displayed correctly.	Window		Teachers List and their Information should shown properly	a message shows ' An error occurred, failed to load notices, Please try again later.'	Critical	High	new	Ruma Akter(QA)	Teachers
Bug-14	Navbar: Photo Gallery		Navbar: Photo Gallery	In Photo gallery section images are not display in organize album.zoom effect on opened image is not available, image caption and other texts stay in english language,some images are not match with caption.although the hover effect,cursor point, close option, next/prev navigation works properly.	Window		Images should be appeared in an organize way and all functions should work properly.	images open correctly although,No albums found only individual images exist.	Minor	Medium	new	Ruma Akter(QA)	Photo Gallery
Bug-15	Navbar: Notice Board		Navbar: Notice Board	The Notice Board link in the navbar redirects to another page, where a loading message " Loading notices... " appears. After a few seconds, a message is shown "An error occurred" data failed to load. Clicking the Try Again button does not work also this button hover effect color was incorrect (" white color "), although the hover effect and pointer cursor are displayed correctly.	Window		Recent notices should be listed.	a message shows ' An error occurred, failed to load notices, Please try again later.'	Critical	High	new	Ruma Akter(QA)	Notices
Bug-16	Navbar: Contact form - Name Field	Contact Page loaded	Navbar: Contact form - Name Field	The contact page redirects correctly, and the name field shows focus borders, an I-beam cursor, but the placeholder color is not appropriate. However, the field accepts numeric and special characters and even allows only spaces without any warning. It also does not show required asterisks or enforce any minimum or maximum character limits.	Window		System should not accept invalid (Numeric / special char / only spaces / empty) in name field	name field accepted invalid format without showing any massage	Critical	High	new	Ruma Akter(QA)	
Bug-17	Navbar: Contact form - Mobile Number Field		Navbar: Contact form - Mobile Number Field	The mobile number field has no minimum or maximum digit limit and does not display any warning messages for invalid input. It accepts alphabetic characters, special characters, and even allows the field to remain empty without any issue. Additionally, there is no country flag dropdown, no option to choose a country, and no country search functionality available.	Window		System should not accept invalid format for mobile number field	No warning massage or alert for invalid format	Critical	High	new	Ruma Akter(QA)	Contact
Bug-18	Navbar: Contact form - Email Field		Navbar: Contact form - Email Field	The email field displays a message to add '@' when missing, but still accepts invalid and duplicate email addresses.Required field indicators and character length limits are also missing.	Window		System should not accept invalid format for email field	No warning massage or alert for invalid format	Critical	High	new	Ruma Akter(QA)	
Bug-19	Navbar: Contact form - Button		Navbar: Contact form - Button	button hover works but some functional error occur like- empty fields can still submit.However, the Send Message button redirects to the home page without confirmation, and after page reload, clicking Contact keeps the user on the home page without showing the form.	Window		with valid input it should redirect or show a confirmation massage and with empty field button should be unclickable.	it accepts with empty field and redirect to home page without any confirmation massage	Critical	High	new	Ruma Akter(QA)	
Bug-20	Footer: Quick Links - nav.academic		Footer: Quick Links - nav.academic	clicking the nav.academic link it redirects to the home page because the hyperlink points to the homepage. All hover effects and the cursor changing to a hand pointer work correctly.	Window		it should redirect to target page with proper information	after clicking it rediects to home page	Major	High	new	Ruma Akter(QA)	Footer
Bug-21	Footer: Quick Links - Online Admission- Name field	Window	Footer: Quick Links - Online Admission- Name field	The name input accepts full names and shows placeholders correctly, but it allows numbers and special characters, and does not enforce max/min length. Validation messages are missing. It should restrict input to alphabetic characters and show proper warnings for invalid entries.	Window		Should accept only alphabetic characters.	Accepts numbers and special characters.	Critical	High	new	Ruma Akter(QA)	
Bug-22	Footer: Quick Links - Online Admission- email field		Footer: Quick Links - Online Admission- email field	The email input accepts valid email addresses and shows alerts for missing '@' and ' .' , but it does not check for duplicates. Validation for format works partially. It should prevent duplicate entries and consistently warn for invalid formats.	Window		Should prevent duplicate and invalid email addresses.	invalid and Duplicate emails are accepted without warning.	Critical	High	new	Ruma Akter(QA)	

Bug-23	Footer: Quick Links - Online Admission- mobile field	The mobile field accepts numeric input and displays the cursor correctly, but it allows more than 11 digits and does not warn on alphabetic input. Validation is incomplete. It should restrict input to exactly 11 digits and block non-numeric entries.	Window								
Bug-24	Footer: Quick Links - Online Admission- date picker field	The date input allows selection of dates but accepts future dates and ignores age limits; the calendar popup does not open. Validation for age and date logic fails. It should provide a functional calendar, enforce age restrictions, and prevent future dates.	Window	Footer visible	Should accept exactly 11 numeric digits.	Accepts more than 11 digits.(no digit limit)	Critical	High	new	Ruma Akter(QA)	online Admission
Bug-25	Footer: Quick Links - Online Admission- File Upload	Clicking the "Choose File" button fails to trigger the system's file explorer. Instead, the application redirects the user to the Admission Success page without any file being selected.	Window		Should restrict future dates and age limits.	Future dates and invalid ages accepted.	Critical	High	new	Ruma Akter(QA)	
Bug-26	Footer: Quick Links - Online Admission- Checkbox	The checkbox borders lack sufficient contrast or proper color definition, making them nearly invisible to the user. This creates a significant usability issue as the input field is not recognizable at first glance.	Window		The button should trigger the local file browser to allow users to select and upload a document.	The system redirects to the "Admission Success" page immediately upon clicking the button.	Critical	High	new	Ruma Akter(QA)	
Bug-27	Footer: Quick Links - Online Admission- Print Layout	While the print functionality is operational on the Success page, the output often fails to maintain the intended design. Elements appear misaligned or poorly formatted during the print process.	Window		The checkbox should have a clear, high-contrast border so users can easily identify it as an interactive element	The checkbox is nearly invisible from the background due to an inappropriate border color	Critical	Medium	new	Ruma Akter(QA)	
Bug-28	Footer: social Links	Hover effects and cursor changed to a hand icon correctly, but When a social media link is clicked, it redirects the user to the home page of the same website within same tab instead of School social platform.	Window		The printed document should follow a clean, structured, and professional layout.	The print layout appears broken or improperly styled in the print preview.	Critical	High	new	Ruma Akter(QA)	Footer
					system should redirect to school social platform	it reload home page	Minor	Medium	new	Ruma Akter(QA)
